Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

4. Provide any additional relevant information that supports the request.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

Three major barriers have contributed to Calipatria's low diversion rate:

1. Inability to verify tonnage in the agricultural community.
2. Curbside of recyclables began late in 2000; contamination has been high.
3. Community outreach programs not implemented.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

Calipatria is a very small community. Its population is decreasing. There are no businesses to speak of in the community and the ones there are, i.e. Earthrise Nutritionals, are located outside the city limits. After computing the possible diversion tonnage, Calipatria will not be able to achieve much more than 41.25% diversion.

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

1. The residents of Calipatria have become totally involved in the curbside recycling program. They are supporting the City's efforts to reduce contamination. In 2000 curbside diversion tonnage was 8.33 tons. For the first 8 months of 2002 it is over 40.57 tons.
2. Roadside tire cleanup and volunteer collection days have been scheduled.
3. City Council is encouraging reports from the IVWMTF about further ways to increase recycling programs.
4. Every business owner contacted for the base year study endorsed and encouraged us to help them find ways and resources to recycle.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

The Imperial Valley Waste Management Task Force has begun the process of forming a regional agency for reporting SRRE data.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.
